

**REMARKS**

The Notice of Allowance mailed on January 12, 2005 has been received. The applicant requests further amendment at this time of the language of allowed claim 28 to correct minor informalities in the recital of the claimed invention.

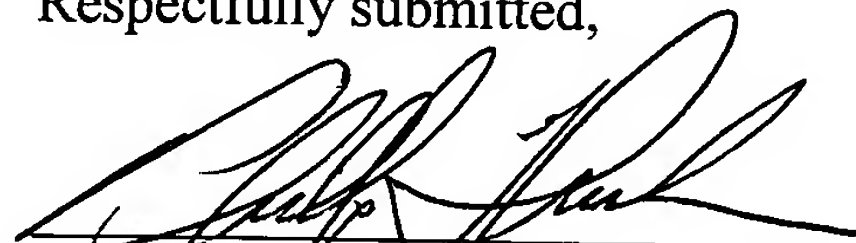

Line 5 of the claim recites "a through hole extending between the substrate first and second surfaces." In line 7, the same feature is incorrectly referred to as "the though hole." The applicant proposes to correct this obvious typographical error by changing "though" to --through-- in line 7.

Line 17 of claim 28 recites "a plurality of conductive members." In line 19, the same feature is incorrectly referred to as "the conductive wires." Lines 16 and 17 of claim 22 recite a similar feature, but without making this obviously incorrect switch in terminology. The applicant proposes to correct this informality by changing "wires" to --members-- in line 19 of claim 28.

It is respectfully submitted that the proposed changes do not affect the scope or meaning of claim 28, and are required to assure that the claim language accurately reflects the allowed invention. Accordingly, entry of this Amendment pursuant to 37 CFR 1.312 is respectfully requested.

Should the Examiner feel that a conference would help to expedite the consideration of this Amendment, the Examiner is hereby invited to contact the undersigned counsel to arrange for such an interview.

Respectfully submitted,

Phillip G. Avruch
